

## **LCP PUMP TRUNK POLICY**

**Cost = \$30**

**Service Day = Mondays Only;** Pump service will not be available on holidays or busy holiday weekends.

- LCP will not be scheduling a specific time for your site.
- Members are responsible in making sure that any and all obstructions are removed from the pump truck path before 7 am each Monday.
- If the pump truck is obstructed in reaching the tank by your stuff, the fee is forfeit, and they will not complete the pump.
- If the pumper is unable to empty your tank, members must call Greenhaus for service, it is highly likely you have a clog. We will not refund your pump fee and won't send the pumper back out to your site.
- It is your responsibility as a requesting member to ensure that all handles are in working order. LCP takes no responsibility for damage incurred while servicing your rig.

***All pump requests must be received by the membership office before noon on Saturday for Monday servicing. Any requests received after noon will be scheduled for the following week.***
